What is "Le et la Champagne"

Do you know what it "la Champagne" ? "La" Champagne means the champagne region, "le champagne" means the champagne wines. Because the champagne wines only come from the Champagne region !

Actors

- Houses : renowned names which produce wines in part with the collaboration of growers
- Growers : families who create wines just with their vineyard
- Cooperatives : union of growers that work together

Philosophies

We say the champagne but since 15 years it would be more adapted to talk about the **champagnes**. Since few years a new generation of producers **rediscover** their vineyard and cellar, the result : the word champagne now needs a "s"

Example of the new spheres of the Champagne :

- Organic or biodynamic
- Barrel aged or terracotta aged
- Low or no dosage added
- Rosé of blending or bleeding
- Single plot or single grape
